ACCESSORIES:

◀ Tams

To complement your Doctoral Regalia, the traditional choice is an 8-sided Black Velvet Tam. Doctoral Tams are also available in various degree colors and can be 4 or 6-sided.

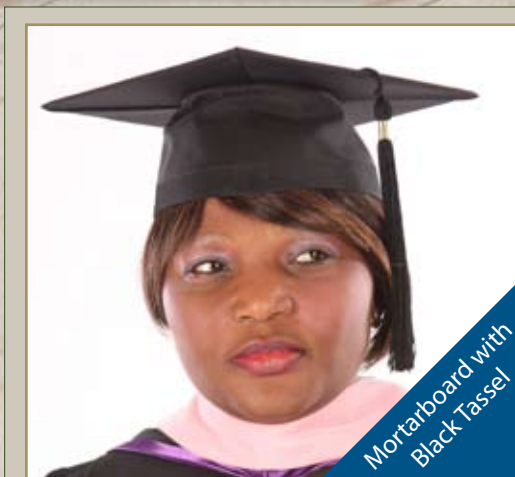

Tassels ▲

You may also choose from three tassels to complement your Mortarboard or Tam: Gold Silk, Metallic Gold Bullion or Metallic Silver Bullion.

▼ Mortarboards

The Mortarboard is light in weight and has a soft folding crown. A stiff-crown model is also available. The reinforced edges prevent any warping and provide extra durability. Available in exact sizes, the crown is quilted for added comfort and is the perfect choice to complement any academic regalia. Mortarboards are typically worn with Bachelor and Master Regalia with a Black tassel. For degree recipients that would like a color other than black, Herff Jones maintains degree color tassels.

*Shown with optional Gold Silk Tassel

▼ Hoods

The Academic Hood is a symbol of your personal and academic achievement – the means by which your degree and the college awarding the degree are easily recognized. The size and shape of the hoods show the degree level with the Doctor being the largest, followed by the Master and the Bachelor. The colors of the satin lining are those approved by the college or university where the degree was earned and the color of the velvet border will indicate the field of study.

ACADEMIC DEGREE COLORS

For all academic purposes, including trimmings of Doctors' gowns, edging of hoods, and tassels of caps, the colors associated with the different disciplines are listed alphabetically. These colors are in accordance with the Inter-Collegiate Costume Code as authorized by the American Council on Education. However, there are a few schools that may wish to establish their own color code for certain degrees. Where there is a question, check with Herff Jones to determine what was used in the past or what may be an appropriate color to be used for a new degree.
